

Constellation Appoints Alan Armstrong to Board of Directors

September 29, 2025

Former Williams CEO and natural gas industry veteran to join Constellation board in 2026

BALTIMORE--(BUSINESS WIRE)--Sep. 29, 2025-- Constellation (Nasdaq: CEG) has announced the election of Alan S. Armstrong to its board of directors, effective Jan. 1, 2026. Armstrong is currently executive chairman of the board of directors for Williams, a major U.S. energy infrastructure company that primarily focuses on natural gas gathering, processing and transmission. Armstrong served as the company's president and CEO for 14 years prior to being named its board chair earlier this year.

Currently executive chairman of the board of directors for Williams, Alan Armstrong will join Constellation's board in January.

Constellation. "His deep industry knowledge and leadership will be invaluable as we integrate America's largest natural gas portfolio into our generation fleet through our deal with Calpine."

"It's a privilege to join Constellation's board and support a company dedicated to delivering reliable, clean energy to millions of homes and businesses. I look forward to helping advance Constellation's mission to enhance America's energy security and economic strength," said Armstrong.

Prior to being named Williams CEO in 2011, Armstrong led the company's North American midstream and olefins businesses through a period of growth and expansion as Senior Vice President – Midstream. Previously, he served in a number of operational and commercial roles in various business units at Williams. He joined the company in 1986 as an engineer.

A respected industry leader, Armstrong currently serves as chair of the National Petroleum Council and is a founding member of Natural Allies for a Clean Energy Future. He also serves as board member for BOK Financial Corp. Armstrong earned his bachelor's degree in civil engineering from the University of Oklahoma where he currently serves as chair of The University of Oklahoma Foundation

About Constellation

A Fortune 200 company headquartered in Baltimore, Constellation Energy Corporation (Nasdaq: CEG) is the nation's largest producer of clean, carbon-free energy and a leading supplier of energy products and services to businesses, homes, community aggregations and public sector customers across the continental United States, including three fourths of Fortune 100 companies. With annual output that is nearly 90% carbon-free, our hydro, wind and solar facilities paired with the nation's largest nuclear fleet have the generating capacity to power the equivalent of 16 million homes, providing about 10% of the nation's clean energy. We are further accelerating the nation's transition to a carbon-free future by helping our customers reach their sustainability goals, setting our own ambitious goal of achieving 100% carbon-free generation by 2040, and by investing in promising emerging technologies to eliminate carbon emissions across all sectors of the economy.
